

An Invitation to View Usha Stud Yearlings

Dear Customer,

As you know, Usha Stud Farms has always been spearheading innovative and transparent practices in the business of Horse-rearing and breeding. We believe in giving our customers full knowledge, and attention they deserve. . . in setting standards that we ourselves reset each year. We believe in outcompeting ourselves each year.

*It is this quest for perfection that has given us the results each year, and helped us to progress to bring you the benefits of technology and knowledge by creating a **special DVD this year showcasing our yearlings**, so that you have full information at your fingertips and can make the right choices. The DVD will show the yearlings walk, their confirmation, their family and pedigree and give you a general soundness report. Our Endeavour is to pre-empt what you may be looking for, and provide it to you at your time and place, and at your leisure.*

This Dvd will not only be sent to you, but also put up on our website www.ushastud.com. Copies can be viewed on large screens such as your television or computer.

The Crop of 2011 showcases yearlings by All time great legendary stallion Razeen, a select crop by Champion Sire China Visit, and our New multiple group winning stallion Multidimensional. Needless to add that these yearlings are out of either Classic or Group winning mares.

My hope is to bring transparency, integrity and ease of choice to you, as a loyal and esteemed buyer of Usha horses.
